development (Scrum).

Experience

(November 2023 – Present)
Development Team Lead.
DIGICOP SOLUTIONS

- Lead a team of developers, assigning tasks, setting deadlines, and ensuring everyone has the resources they need to complete their work effectively.

- Collaborate with project managers and stakeholders to define project scope, requirements, and timelines. Break down the project into manageable tasks and create a roadmap for development.

- Provide technical expertise and guidance to team members. Help resolve technical issues, review code, and ensure best practices are followed in software development.

- Allocate resources effectively to meet project deadlines and ensure optimal productivity. This includes managing both human resources and technical resources.

- Identify potential risks and challenges early in the project lifecycle. Develop mitigation strategies and contingency plans to address risks and keep the project on track.

- Facilitate communication within the development team as well as with other teams, stakeholders, and clients. Keep everyone informed about project status, changes, and challenges.

- Ensure that the software developed meets quality standards and fulfils the requirements specified by the client. Implement testing processes and procedures to identify and fix defects.

- Conduct regular performance evaluations for team members, providing feedback on their work and identifying areas for improvement. Recognize and reward outstanding performance.

- Stay updated with the latest trends and technologies in software development. Adapt to changes in project requirements, technologies, and industry best practices.

- Inspire and motivate team members to perform at their best. Lead by example, demonstrating professionalism, integrity, and dedication to the project and the team's success.

(Jan 2013 – October 2023)
